Alternative-Cupboard Treats

JUST IMAGINE A WORLD WITHOUT CAKE. OK, you can stop now; we know it's painful.

Patsy Rosenberg understands that pain all too well. After developing adult-onset food allergies a few years ago, Rosenberg could no longer enjoy the sumptuous sweets most of us take for granted. So, she set herself up in the kitchen and spent hours experimenting, testing and conceiving recipes that she and others with food allergies could safely enjoy.

The fruit of her labor is Cherrybrook Kitchen, which sells all-natural cake and cookie mixes that are nut-, egg- and dairy-free, in addition to being Kosher (certified by Tablet K) and vegan. Cherrybrook also sells gluten-free cake frostings. The products are carried in Super Target, and are also available online at www.cherrybrookkitchen.com.
