## Have Your Cake

On one package, a boy and girl slide down the frosting of a cupcake. On another, they fly a kite. These aren't children's books but Cherrybrook Kitchen Baking Mixes. Owner Patsy Rosenberg has created mixes that rival Betty Crocker in richness, without the use of eggs, dairy or peanuts. The cakes work for anyone heading to a potluck or picnic who doesn't want to offend allergies. Chocolate lovers will find the decadent fudge-like frosting irresistible. Don't miss their cookie mixes, which come in sugar and chocolate chip varieties.
